Updated Clean Proposed Third Floor

Joinery Plans

Our goal is to find joinery that helps restore the property to a state of what would have been, had the building not had a fire.

Below are photos from a neighbouring property on Kentish Town Road. For the first floor, we will plan to add ceiling moulding and skirting boards that are of a similar fashion. We plan to replace the existing flat doors with detailed panelled doors.

Neighbouring property interior photos of joinery – first floor moulding, panelled entrance door:

Style of interior to be used for 60B Kentish Town Road refurbishment:

Sample of architrave, skirting boards and cornice to be used:
