**Outside seating application: 4 Grays Inn Road, EC1N 2NS**

**Risk assessment**

*We operate 12 commercial premises within London and have outside seating of this style and finish in several, including at 131 Clerkenwell Road within Camden. The materials chosen are reliable and durable, there is adequate spacing for the passage of the users and a substantial walkway of 3.1m remains on what is a newly refurbished and wide pavement. There would appear to be no obvious risk to either passers by or users that would require additional steps to mitigate.*
