2022/3706/P	Stevens	16/09/2022 17:55:47	COMMNT	It is sad to see yet more business premises being converted to residential use , changing the character of the conservation area which has been traditionally mixed use. Once converted to residences its not long before an application comes to add more stories further changing the character. Once upon a time these back streets had regular day time activity. If this application is permitted it means another step on the route to daytime desert, evening dormatory.
