Planning Trees,

5 Pancras Square,

London N1C 4AG

16/9/22

Dear Sir/Madam,

I have been a tenant in this house since 1961; And since then have always enjoyed the view of our Copper Beech Tree, from my kitchen window.

I look at the tree, and it can look back at me! In winter, the rain-drops hanging from the twigs, look like pearls.

In Spring the new leaf is a lovely sight, and sign, giving hope for the coming Summer.

Slowly the leaves turn a beautiful copper colour. Now it is Autumn, the leaves have turned dark green. Soon they'll turn brown and fall to the ground. Other tenants in the house also care for this tree.

I'm sorry all I manage to do on the computer, is send emails. So am unable to "View related Document".

I would think this Beech Tree, has stood in this garden for at least a hundred years.

P.T.O

Aware of Climate Change, and not too good air, in London; should any tree be felled? Surely not. Unless there is a VERY GOOD reason for doing so.

Yes, our Beech Tree could do with a trim, but I still hope it does not need to be cut down.

Sincerely,

Mrs Gabriele Foti

P.S. Some of the envelopes which arrived at N° 50 Fellows Road, were for N° 52, about a Poplar Tree in the rear garden.

I posted these two envelopes through the door of N° 52.

I also posted one envelope re: the Beech Tree to NCPM, who are the agents for this property (N° 50 Fellows Road). So I hope they have sent it on to our landlord.
