2022/3140/P	Michael Gould	25/09/2022 11:37:41	OBJ	<p>I strongly object to the basement works at 192 Goldhurst Terrace for a number of reasons:</p> <ol style="list-style-type: none"> <li>1. both my wife and I work at home. The noise and disruption the work would cause significantly impacts our ability to work effectively. There is currently a large house project underway (including building a basement) at 251 Goldhurst Terrace which is proving to be extremely testing for both my wife and I. There is significant noise pollution and I regularly have to apologise to clients due to the noise and have also had to stop calls.</li> <li>2. Having another very disruptive building project so close to our house for another year is not acceptable. We pay our high council taxes and expect to live without such considerable disruptions.</li> <li>3. we have experienced subsidence at our house which we have corrected. I am very concerned that with all this work being done close to our house that it will destabilise our foundations.</li> <li>4. observing from the work at 251 Goldhurst there is a big increase in big vehicles coming and going from the property. This is a traffic safety risk in a busy street.</li> </ol>
