**Subject:** Views on proposal to Barrie house St Edmunds Terrace

[Redacted]

I currently live in the block next to Barrie House. I received your Proposal to build on top of Barrie House. During the last almost ten years we have been subjected to building works up and down StEdmunds Terrace, the noise and disruption has been horrendous !! The building works we have had to endure. Have been the huge block at the other end of the road being built near the park. The demolition of two houses and the complete rebuilding of a block of flats. Works going on to the Penthouse. The building of the block next to Barrie house. Renovations to block opposite. The list is endless ! Not to mention all the road works .

Please be aware that I contest further works in St Edmunds Terrace a nuisance and will cause a huge disturbance to myself and others living in this community.

Yours sincerely,
