Hi All,

Wonder if you can help.... We made a site visit earlier to the above address, the client is an 82 year old, terminally ill lady. She has 2 Apple trees that she would like to reduce the height of by 1/1.5m and reshape. She would like this done this week if at all possible. Obviously we explained that she is in a conservation area but time is a bit of an issue.

Kind Regards,

Rukhsana Harney
