[EXTERNAL EMAIL] Beware – This email originated outside Camden Council and may be malicious. I gather that you have granted the extended planning for the above application.

Please inform me what on justification there possibly is for this. It appears that the developers have played Camden Planning department for fools, as developers always do. What is the point of a planning committee when developers know that all they need to do is put in an initial application and then ask for it to be increased in scope nearer the time and the planning department will roll over and grant them such extended permission.

I know for a fact the these developers build this into their outline assumptions. You have just bolstered their profits at the expense of the Kentish Town residents and area. You have changed the area for ever, and just to give a bit more profit into private developers. You have not improved the housing situation in the area, you have been played by developers.

I hope you are, at the very least ashamed.

Please explain your actions.

Yours faithfully

Angus Donaldson
