To Whom It May Concern

Lazari Investments Limited support GOSH's application (ref: 2022/2255/P) for a new Children's Cancer Centre. We believe that it is very important that GOSH is able to develop and modernise its facilities so it can continue to provide high quality cancer services, in the very best environment, allowing for innovation and research to take place easily. Having such a development at GOSH in Bloomsbury, is very important for patients from across the UK, so they can easily access this highly specialised complex care and treatment.

GOSH recently engaged with us out of courtesy as neighbours to explain why the proposed development is required. I understand that the current facilities are outdated and that the existing building is restricting the effectiveness of their operational capabilities. We feel that the proposed building is a significant improvement on the existing one. This is both in terms of its architectural appearance and the environment it will provide for patients and the quality of their treatment.

We are passionate about Bloomsbury. The staff and patients of GOSH are regular visitors to our ownership at the Brunswick. It is important that the reputation of the area for medical excellence is maintained and enhanced and we feel that this project will contribute to that. It therefore has our full backing.

Regards
