2022/3578/P	Sarah Blackman	04/10/2022 19:52:57	SUPNOT	Very pleased and welcome this investment in our local area. The area has been neglected for a long time with so many units boarded up on the high road and the businesses that appear to be thriving are operating from ugly pre-fab buildings. We definitely need a post office and I agree the small units would make great spaces for independent businesses and artists. Lighting will be very important for safety reasons. This will have such a positive impact and uplift the perceptions of the local area. Arriving at Kilburn Station at night is not a pleasant experience at the moment. A small investment into Exeter road would not go amiss to capitalise on the effect of this development. Leaves are not cleared often enough and are allowed to build up into a thick, slippery carpet every winter. The multitude of trees backing on to the railway are oversized and not cut back enough - blocking light and the shedding a copious amount of leaves. The street lighting is poor and disappears into the trees without having much impact on the illumination of the pavement. It;s hard to feel safe walking there in the evenings. Fix all of that and Kilburn will be a fantastic place to live.
2022/3578/P	Alix Baldwin	06/10/2022 15:45:23	SUPPRT	The Kilburn Mews plan, as set out in this application, is a positive redevelopment of the proposed area and I am fully in support of it. There is a clear overall positive impact on residents, local businesses and the wider community. It will enhance the area aesthetically and operationally, whilst clearly providing the chance for much-needed new businesses and facilities to flourish. Furthermore, given that most of the fabric of the site is in place and it is a case of retrofitting and adapting an existing site, the relative construction disruption will be minimal in the scheme of things. I very much hope this goes ahead.
