I am writing to complain about the planning application for 27 Goodge Street W1T 2LD to install 6 air source heat pumps on the rear first floor.

I live on Colville Place just behind the proposed site and I object to the increase in 24/7 noise levels this will generate. We already have to deal with the extractor fans and air conditioning units late into the night but this will be going throughout the night and is likely to disturb our sleep.

It is simply not acceptable.

Tracey Gardiner
