2022/3936/T	bertrand	09/10/2022 14:15:17	OBJ	As we are living in a climate emergency, please take into account the value of trees in the city. They provide cover for nesting birds, they absorb noise, pollution, and summer heat. Research has continually shown that crime rates in a local area are lower in proportion to the number of trees and greenery. Cherry blossom especially is so uplifting. We hope this is no more than cautious pruning, where necessary.
