2022/4302/T	The Simmons Discretionary Trust	17/10/2022 13:52:21	OBJ	The Oak tree provides an amenity to the surrounding properties. There are owls that live in those trees to the rear of adjoining properties and I cannot see the benefit of reducing the crown by 2m. There does not appear to be any justification to reduction in the crown contained within the application.
