Reason: For the avoidance of doubt and in the interest of proper planning.

- 4 The proposed landscaping works shall be carried out in accordance with the details previously approved under application ref: 2020/0830/P. The relevant part of the works shall not be carried out otherwise than in accordance with the details thus approved.

Reason: To ensure that the development achieves a high quality of landscaping which contributes to the visual amenity and character of the area in accordance with the requirements of policies A2, A3, A5, D1 and D2 of the London Borough of Camden Local Plan 2017.

- 5 All hard and soft landscaping works shall be carried out in accordance with the approved landscape details by not later than the end of the planting season following completion of the development or prior to the occupation for the permitted dwelling, whichever is the sooner. - 14 Any trees on or immediately adjacent the site which, within a period of 5 years from the completion of the development, die, are removed or become seriously damaged or diseased, shall be replaced as soon as is reasonably possible and, in any case, by not later than the end of the following planting season, with others of similar size and species, unless the local planning authority gives written consent to any variation.

- 17 The combined heat and power unit (CHP) stack and its height relative to the mechanical ventilation air inlet locations shall be implemented in accordance with the details previously approved under application ref: 2020/0830/P. Reason: To safeguard the amenities of the adjoining premises and the area generally in accordance with the requirements of policies CC1, CC2 and CC3 of the London Borough of Camden Local Plan 2017.

- 21 Prior to the occupation of the dwelling, the second floor northern side dormer window serving bedroom 7 shall be obscured and fixed shut to a height of 1.7 metres above the floor level of the room. The obscure glazing shall be permanently retained thereafter.

Reason: In order to prevent overlooking of the neighbouring occupiers in accordance with the requirements of policy A1 of the London Borough of Camden Local Plan 2017.

- 22 In accordance with the details previously approved under application ref: 2020/0830/P, a suitably qualified chartered engineer with membership of the appropriate professional body must inspect, approve and monitor the critical elements of both permanent and temporary basement construction works throughout their duration to ensure compliance with the design which has been checked and approved by a building control body. Any subsequent change or reappointment shall be confirmed forthwith for the duration of the construction works.

Reason: To safeguard the appearance and structural stability of neighbouring buildings and the character of the immediate area in accordance with the requirements of policies D1, D2 and A5 of the London Borough of Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting permission:

-Reorientation of the approved car lift on the front driveway

The approved development included a car lift positioned at an angle to the main dwelling. There is no change in the number of vehicles that could be parked on-site as a result of the proposed amendment. The layout of the driveway and landscaping would not change the vehicle capacity of the site. This amendment would have no significant design or transport impact.

-Relocation of the lightwell to the rear of the building

To the rear of the approved dwelling, the proposed lightwell has been reconfigured compared to the approved layout. The repositioning is considered to be a minor change

which would not detrimentally impact upon the character and appearance of the building or neighbouring amenity.

-Internal layout changes and associated amendments to position of some windows on side and rear elevations

The revised fenestration is considered to be more sympathetic to the architectural style of the house and as such is acceptable. The internal layout changes would have no material impact on the quality of accommodation.

-Ventilation duct enclosures

These would appropriately be integrated into the building in a non-invasive manner and would not have a material impact upon the overall appearance of the building.

-Sub-basement floor slab

Minor changes have been proposed to the position and layout of the basement slab in the area around the services void to serve the swimming pool. This has not resulted in any increased area but simply a relocation of some elements within the overall approved basement 'box'.

The structural effect of this change has been reassessed by appropriate engineers who have confirmed that this will not alter the technical results within the existing approved Basement Impact Assessment. This element of the proposal has been reviewed by the Council's independent engineering consultants who raise no concerns. There will be no material change relative to the approved scheme.

No objections were received following statutory consultation. The site's planning history and relevant appeal decisions were taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving or enhancing the conservation area, under section 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposal is in general accordance with policies D1, D2, A1, A4, A5, T1 and T2 of the Camden Local Plan 2017. The proposed development also accords with the policies of the London Plan 2021 and National Planning Policy Framework 2021.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).
- 3 This approval does not authorise the use of the public highway. Any requirement to use the public highway, such as for hoardings, temporary road closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No 020 7974 4444). Licences and authorisations need to be sought in

advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.

- 4 All works should be conducted in accordance with the Camden Minimum Requirements - a copy is available on the Council's website (search for 'Camden Minimum Requirements' at www.camden.gov.uk) or contact the Council's Noise and Licensing Enforcement Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No. 020 7974 4444)

Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours.

- 5 This proposal may be liable for the Mayor of London's Community Infrastructure Levy (CIL) and the Camden CIL. Both CILs are collected by Camden Council after a liable scheme has started, and could be subject to surcharges for failure to assume liability or submit a commencement notice PRIOR to commencement. We issue formal CIL liability notices setting out how much you may have to pay once a liable party has been established. CIL payments will be subject to indexation in line with construction costs index. You can visit our planning website at www.camden.gov.uk/cil for more information, including guidance on your liability, charges, how to pay and who to contact for more advice. Camden adopted new CIL rates in October 2020 which can be viewed at the above link.
- 6 Your attention is drawn to the fact that there is a separate legal agreement with the Council which relates to the development for which this permission is granted. Information/drawings relating to the discharge of matters covered by the Heads of Terms of the legal agreement should be marked for the attention of the Planning Obligations Officer, Sites Team, Camden Town Hall, Argyle Street, WC1H 8EQ.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.

Yours faithfully
