Hi

Many thanks for your response to my colleague Julie Wards enquiry regarding protected trees at Grafton Crescent

On review it would appear the tree in question may be in the rear garden of adjacent property on Castlehaven Road

I have attached a photo of the tree in question which is a Gleditsia heavily infested with virginia creeper and ivy which is in direct conflict with the property of our client, Origin Housing, on Grafton Crescent and creating an issue for the elderly and vulnerable tenant within

The works will be to prune back from the property for clearance to abate a nuisance, I am happy to submit a CA notice however if you can confirm whether the works can be expedited without recourse to a 6 week notice due to the significant encroachment, or please could this notice be reviewed promptly?
