STOVES

Option: Aire 3 Store Stand

01 / 10

This British made stove is an exciting addition to our Aire collection.

The Charnwood Aire 3 has been designed for smaller spaces. Not just for conventional houses – but for cabins, for yurts and tiny homes.

The latest burning technology for enhanced efficiency

With an efficiency of 86% it has all the features of both the Aire 5 and Aire 7:

large ceramic glass window, single air control for easy use, cool-to-touch handle for safe reloading but perhaps best of all it meets all the criteria set for Ecodesign 2022 with a Clear Skies rating of 5 stars. This is quite revolutionary for a stove with such a small output.

Customisation Options

aire3

An iconic wood burning stove with an incredible view of the fire. The Charwood Aire 3 delivers a comfortable 1.5-5kW of heat to the room with a crystal clear burn and remarkable controllability. Deliberately designed to maximise the view of the fire the minimal styling of the Aire fits comfortably into virtually any fireside situation whether it be freestanding or within a traditional fireplace.
