

**Subject:** URGENT OBJECTION! 192 Goldhurst Terrace NW6 3HN Planning Application

**Ref: 2022/3140/P**

Dear Sirs

I have been abroad for some time and just returned to find out that an application has been made to create a basement at the above property.

I live and work from Flat 2 which is just above the property. These works are going to significantly impact me personally and professionally as I live and work from home. As you can appreciate these works are major and substantially above normal building works and it will be impossible for me to continue living at the property.

I already suffer  and my home is my sanctuary.

I would therefore ask you to please consider my objection and reject this planning application for the above reasons.

Kind regards.

Deborah Laniado
