To whom it may concern

Leverton Stores corner shop is a much-valued and important part of our community, and has been providing a friendly service for the area for over 30 years. A storage unit on the shop's forecourt will enable this important independent business to provide a wider range of goods, and I fully support the planning application.

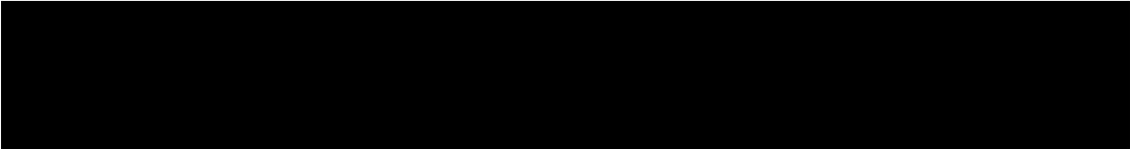

Yours, Clio Whittaker

The owner of the corner shop at 50 Leverton Street, Mahmad Dilloo, is a pillar of the local community and offers an essential service to many locals in the area (and has done so unstintingly throughout the pandemic). He is a rare example of an independent retail business in this part of the conservation area in Kentish Town, and an always friendly and smiling face to his many, loyal customers. I am fully in favour of this application for permission for a storage unit on the retail forecourt to support this important business. I urge the council to approve the planning application.

Should you require further details please do not hesitate to contact me.

Best wishes,

50 Leverton Street.

I am writing to comment on this application. Our local Conservation Area has lost some of its most important assets: the typical corner shops and pubs that brought life and economic activity to the streets. They were community hubs. Most have been converted to residential use creating an unfortunate homogeneity. The corner shop which is the subject of this application is a rare surviving remnant.

We understand that officers may see the addition of external storage and display as causing visual harm to the character of the Conservation Area. However, this harm is more than offset by the obvious benefit created by a thriving corner store. We fully support the applicant's submission given the manifest benefit their economic activity brings to the character of the Conservation Area.

Yours faithfully,

Níall McLaughlin
