Subject: Planning Application - 2022/4000/P - 13 Grafton Crescent NW1 8SL

I live in Healey Street NW1 directly behind 13 Grafton Crescent and object to the proposed plans for a roof extension. The building of an extra floor at the back of this property will seriously impact our privacy as it will directly overlook our windows & garden.

If consent is given for this extension, there will surely be further applications for such extensions, which will be detrimental to this area which is designated an "Environmental Area".

I urge Camden not to allow this extension.
