Subject: 2022/2255/P Feedback re meeting 10/11/22

Dear CCC Project Team
Re 2022/2255/P

I attended the drop in session last night.
I was disappointed to find the meeting had been convened in a rather small hot space therefore not conducive to discussions relating to my questions and concerns which I was unable to voice.
The plans appear to be ever changing with greater impact to the local community.
It would seem that the needs of the hospital have outgrown the site and therefore I was surprised to see no alternative plan for a secondary site for GOSH.
I cite recent examples of hospitals/centres that have had to move because of this- UCLH; RNTEH and the macmillan Cancer centre.
I must once more voice my concerns that this proposed build will cause unnecessary disruption to both residents, hospital users including those at nearby NHNN and local businesses.
Camden cannot let this project go ahead.

Pauline Buck-Evans
