Subject: Request for meeting

Patrick,

Just to say, I continue to object to the GOSH plans, as local resident, business owner, and representative of the Great Ormond Street group of residents and businesses. The changes to the plans are marginal and have no material effect on the very negative consequences of the scheme.

In the meantime, however I am concerned that you do not seem to be responding to our many requests for a meeting.

Given we understand that you have met up with GOSH and their consultants many times it would seem reasonable and fair for you to also meet up with representatives of local residents and businesses too, especially since it our lives and businesses that are on the line.

As such, we would request again that you agree to meet up with GOSG representatives as soon as possible.

Please publish this objection on the portal.

Many thanks.

Rob Lewis
