Subject: Great Ormond Street Hospital redevelopment project

Hello Patrick,

I live on Millman street and I'm worried about the danger, the risks and devastation it will cause to myself and my child and the users of the area i.e. patients and pedestrians etc.

Including there will be mice infestation on the increase as a result of the project. As it is, I get woken up at night from numerous noises and at night or early hours of the morning when having my window opened there's no quality air when there isn't vehicles going through.

We and others and the school children attending on Millman street and the day care centre are in close proximity to all this mayhem. And it's a long project, surely they have to put better measures for the local community!

We can't live along side the dust and noise pollution.

Can we protest to either get residents to reside to another accommodation or protest it doesn't go ahead. For them to build on another site?

That is a tight squeeze of the current location.

I missed the meeting on the 10th November. Can you briefly inform me what was mentioned and the outcome?

Regards,

Merina
