2022/2529/P	Anke Lueddecke	24/10/2022 09:52:16	COMMNT	This planning application makes many references to sustainability and energy efficiency measures, including water preservation. However, the proposed plans show a basement pool and plunge pool, the existence of which seems to contradict the claims that the new building will be energy efficient. The council's planners should take the environmental impact of constructing and maintaining a private swimming pool into account, in the face of the global climate crisis.
