| 2022/4321/P | Martin Stone | 12/11/2022 17:41:04 | OBJ | <p>I object to the application on the following grounds</p> <ol style="list-style-type: none"> 1. Percy Mews is a small already with natural light . The sun will be blocked on the mews by the extension. 2. My home will be overlooked by the extension and roof terrace adversely affecting my privacy. 3. The Mews is a quiet residential street, adding this extension will change its character into a overcrowded alleyway adversely affecting the existing residents. 4. The building and subsequent occupation of the extension will create noise and disturbance for the residents. 5. The placing new flats above a pub will create an adversarial relation between the existing pud and the people in the extension. This conflict will create a bad atmosphere in the mews with arguments shouting etc. |
| 2022/4321/P | Daniel Lee | 12/11/2022 18:37:49 | OBJ | <p>I strongly oppose this planning application due to the proposed building blocking natural light to Percy Mews and my terrace garden. In addition Percy Passage is the sole access to many of the buildings on Percy Mews meaning building works would be disruptive for access to and from our properties (both on foot and by vehicle). The Mews is an echo chamber meaning building noise would be amplified due to the nature of the Mews. Percy Passage is used by The Wheatsheaf public house customers to drink in which brings its own high level of noise and access issues. How are 3 flats built directly above this passage going to cope with that?</p> |
