2022/4545/T	CRASH	01/11/2022 11:20:51	OBJ	<p>CRASH would like to object to the felling and grinding out of the Magnolia (T3) in this application. This magnolia forms an important and highly visible part of the public streetscape in the conservation area and keeping it is in alignment with Camden's local policies and strategy documents. No reason is given for felling it. From looking at visual evidence it would seem that the magnolia could be thinned out if there is concern about light blocking into the front of the property without damaging the integrity of it. This would be highly preferable to felling.</p> <p>In terms of T2 - it seems there are 2x young birch trees planted very close to each other. If this application is for removal of only one of the specimens CRASH does not object to this.</p>
2022/4545/T	S. Nix	26/10/2022 10:18:14	OBJ	<p>Why are trees T2 and T3 being felled? Reasons should be given even if these trees are not subject to a TPO. It seems trees are being felled constantly in South Hampstead, with little input or restriction from the Council. I object to this application. Further information needs to be provided.</p>
