Subject: Objection - Tree application 20225025/T - opposite 37 Auden Place, NW1 8NB

Dear Tom Little

I object to the peremptory felling of this maple tree. There are too many large trees being felled in Primrose Hill lately. With the hot summers, should not Camden be doing everything it can to preserve big trees?

I had a look at the tree today and it seems perfectly fine. If it does have disease, I think proof of disease should be demonstrated IN the application.

Also, the tree is not on Auden Place property. It is in the back garden of a building that faces Princess Road. I would like to think that the owners of that property have given permission for this felling, but it is not clear from the application that this is the case!

Sincerely,

Laura Rivkin

43 Princess Road NW1 8JS
