2022/4657/T	D,Greene	03/11/2022 14:23:08	OBJ	<p>There are many people who do not like trees in the city , they object in particular to the leaves they shed in the autumn and the shade they make .. however Hampstead is known the world over for its leafy character , that is why people have come to live there over such a long time .. its romantic green character has been an inspiration ,, for poets like Keats .. so lets try to keep and care for this rare urban character that we can now not only value it for its beauty but for its usefulness in making our air cleaner and contributing to reaching our climate goals . A professional tree surgeon should be called on to prune these trees .</p> <p>The felling should be refused .</p>
