Subject: Comments on 2022/3694/P

Dear Sam FitzPatrick

We are Primrose Hill residents who often walk past the site of the proposed refurbishment.

In two separate comments, we wrote in support of this application on 7 November and received confirmation messages from Camden that our comments had been received. But we see that our comments are not on the Camden Planning website. Therefore, we are writing to you personally.

We strongly support this application. Of a high quality, the proposal is sensitive to Primrose Hill Studios and the Conservation Area. Offering a careful refurbishment of the existing Studio and Porter's Lodge, it is a significant improvement on the approved planning application.

While the approved planning application would visually intrude on Kingstown Street and the Auden Place housing, the proposal is of a more appropriate scale and sits well with the rear elevations of Primrose Hill Studios.

It is especially commendable that the proposal retains 12 Primrose Hill Studios as a painting studio, and does not build within this volume.

Best wishes

Prof Jonathan Hill and Dr Izabela Wieczorek
