I would like to register my objection to the revised plan for the redevelopment of One Museum Street.

The new plan is for a building as equally obtrusive, ugly and out of character with the area as the previous scheme. It would contribute nothing to the local area and provide another eyesore between the key tourist areas of Covent Garden and the British Museum. Bad news for the environment on several levels, next to no social or affordable housing planned (and even less if it is actually built). An atrocious precedent for even more unwanted and unneeded high rise in what was once an attractive and historically important part of London.

Please stop this development immediately.

Many thanks,

Peter Marsh
