Planning Application Number 2022/3694/P

Dear Mr Fitzpatrick,

As the author of the main history of Primrose Hill and the area around it, *Primrose Hill: A History* (2013), I am writing to support this application.

Primrose Hill Studios are the most remarkable architectural buildings in the Primrose Hill area. Set around a communal courtyard, they have no parallel elsewhere in London.

They deserve to be treated as a special case. These plans, which will help preserve their character, are much better than those for which there is existing planning permission.

Yours sincerely,

Martin Sheppard
