Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible.

The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

The questions below will help determine if the proposals are eligible for this permitted development right.

The current building and site

Was the current use of the building as dwellinghouses only granted by virtue of permitted development rights under Schedule 1, Part 3, Class G, M, MA, N, O, P, PA or Q of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended)?

Yes

No

Was the current building constructed between 1 July 1948 and 5 March 2018?

Yes

No

Have additional storeys already been added to the original building (as it stood on 1 July 1948, or as built after that date; or, if 'Crown land', as it stood on 7 June 2006, or as built after that date)?

Yes

No

Is any part of the land or site on which the building is located:

- in a conservation area;
- in an area of outstanding natural beauty;
- in an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside;
- in the Broads;
- in a National Park;
- in a World Heritage Site;
- in a site of special scientific interest

Yes

No

The proposed development

Will the proposed additional storeys only be constructed on the principal part of the building (i.e. the main part of the building excluding any front, side or rear extension of a lower height, whether this forms part of the original building or a subsequent addition)?

Yes

No

Would the floor to ceiling height, measured internally, of any proposed additional storey exceed:

- 3 metres; or
- the floor to ceiling height, measured internally, of any existing storey of the principal part of the existing building

- Yes
 No

Would the proposed extended building's:

- height exceed 18m (as measured from ground level to the highest part of the roof); or
- roof be:
 - more than 3.5 metres higher than the highest part of the existing roof, where the existing building consists of one storey above ground level; or
 - more than 7 metres higher than the highest part of the existing roof, where the existing building consists of more than one storey above ground level.

- Yes
 No

If the dwellinghouse is not detached, would the proposed extension result in the highest part of the roof exceeding 3.5 metres above either:

- the highest part of the roof of the building it is joined to (e.g. by party wall or adjoining main wall); or
- if in a terrace, the highest part of the roof of any building in the row it is situated

- Yes
 No/The dwellinghouse is detached

Will the development include a window in any wall or roof slope forming a side elevation of the building?

- Yes
 No

Will the roof pitch of the principal part of the proposed extended dwellinghouse be the same as the roof pitch of the existing dwellinghouse?

- Yes
 No

Will the materials used in any exterior work be of a similar appearance to those used in the construction of the exterior of the existing dwellinghouse?

- Yes
 No

Following the development, will the dwellinghouse remain in use within Use Class C3 and for no other purpose, unless that purpose is ancillary to the primary use as a dwellinghouse?

- Yes
 No

Related operations and works

Will any proposed engineering operations reasonably necessary to construct the additional storeys include:

- Provision of visible support structures on or attached to the exterior of the building upon completion of the development; or
- Anything other than works within the existing curtilage of the building to strengthen existing walls or foundations

- Yes
 No

Description of Proposed Works, Impacts and Risks

Proposed works

Please describe the proposed development including details of any works proposed

It is proposed to construct an additional storey on the existing residential property at 2 Tobin Close, London NW3 3DY, in line with the standards set out within Class AA, Schedule 2, Part 1 of the GPDO. The proposed additional storey would be constructed on the principal part of the existing house.

The additional storey would accommodate a large master bedroom with a bathroom.

In line with the requirements, no windows will be located on the side elevations of the additional storey. Additional windows will be located in the front and rear elevations in order to provide the new rooms with good level of light. The total height of the additional storey, at approximately 2.6 metres, falls well within the parameters set by the Guidance.

Please describe the effects of the proposed development on the external appearance of the building including the design and architectural features of the principal elevation (and any side elevation that fronts a highway)

As shown on the accompanying drawings, the materials for the additional storey have been carefully selected in order to match the materials of the existing house. The render have been designed to match the existing materials.
The additional storey, once constructed, will appear as a natural extension to the existing building and not as a separate element.

In the case of upwards extensions consideration must be given to every face of the building

Measurements

What is the current height of the dwellinghouse (in metres, as measured from ground level to the highest part of the roof).

7.28

What will be the height of the dwellinghouse once the additional storeys are added (in metres, as measured from ground level to the highest part of the roof).

9.88

Impacts and risks

Please provide details of any air traffic and defence asset impacts and how these will be mitigated

The development is not within an airport or defence asset safeguarding zone, and so will not result in an impact to either air traffic or defence assets.

Please provide details of the impacts of on the amenity of any adjoining premises including overlooking, privacy and the loss of light and how these will be mitigated

The erection of an additional storey will not result in any further impact on neighbouring amenity.
Due to its location the additional storey will not take any significant amount of daylight or sunlight from the neighbouring buildings.
The existing distance between the buildings to the front and to the rear ensures the privacy.

In the case of upwards extensions this includes neighbouring properties which are not contiguous with the proposed development site. Further details should be provided for these application types

Where relevant (due to the siting of the building), please provide details of the impact on any protected view.

The property is not identified as falling within a Protected Vista and so will not result in any impact on protected views.

These are identified in the Directions Relating to Protected Vistas dated 15 March 2012 issued by the Secretary of State.
