Subject: Intended Tree Works 1 Boscastle Toad NW5 1EE

Dear Tree Department

Intended tree Works 1 Boscastle Road NW5 1EE

I have recently become aware of proposed tree works in the rear garden at the above address.

There is no mention of the fact that the yew tree whose height is proposed to be reduced by 2 metres has a Tree Protection Order on it and special consideration should be given to this ancient tree. It is one of a group of old yew trees found in the gardens of Grove Terrace and Boscastle Road and are thought to be an indication of previous land-use for a spiritual purpose.

The tree has already had its crown lifted to accommodate a large garden building (which incidentally exceeds the height set in the planning permission granted) and further reduction in this tree will mean that there is much more light spilling into the dark gardens of Grove Terrace. This is particularly the case now that 1 Boscastle Road has so much more glass rather than brick across the back of the house.

I would like to OPPOSE the proposal of more work on this particular tree.

Yours Faithfully

Caroline Bloch

9 Grove Terrace NW5 1PH
