Dear Mr FitzPatrick

As a Camden resident who has previously lived on Egbert Street and Edis Street in Primrose Hill for many years, I am writing to support planning application 2022/3694/P. The proposed scheme provides much needed restoration of the Studio buildings which are in very poor repair. It increases the garden area and also offers a more sensitive presence on Kingstown Street than the currently approved scheme. This proposal will enhance the conservation area through the evident care and consideration of its design.

Best wishes
