Dear Sir/Madam

DECISION

Town and Country Planning Act 1990 (as amended)

Full Planning Permission Granted

Address:

**66 Belsize Lane
London
NW3 5BJ**

Proposal:

Installation of replacement kitchen extract ductwork on rear elevation
Drawing Nos: 1165-3-OS-01 Rev.A; 1165-3-OS-02 Rev.B; 1167-X-GA-RP Rev.A;
1167-X-EL-01 Rev.A; 1167-3-EL-01 Rev.D; 1167-3-GA-RP Rev.B; Noise Impact
Assessment Rev.01 by Peak Acoustics dated 21/11/22; Maintenance and Cleaning
Schedule by Ideal Catering Solutions Ltd.

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

1165-3-OS-01 Rev.A; 1165-3-OS-02 Rev.B; 1167-X-GA-RP Rev.A; 1167-X-EL-01 Rev.A; 1167-3-EL-01 Rev.D; 1167-3-GA-RP Rev.B; Noise Impact Assessment Rev.01 by Peak Acoustics dated 21/11/22; Maintenance and Cleaning Schedule by Ideal Catering Solutions Ltd.

Reason: For the avoidance of doubt and in the interest of proper planning.

- 3 Noise levels at a point 1 metre external to sensitive facades shall be at least 10dB(A) less than the existing background measurement (LA90), expressed in dB(A) when all plant/equipment (or any part of it) is in operation unless the plant/equipment hereby permitted will have a noise that has a distinguishable, discrete continuous note (whine, hiss, screech, hum) and/or if there are distinct impulses (bangs, clicks, clatters, thumps), then the noise levels from that piece of plant/equipment at any sensitive façade shall be at least 15dB(A) below the LA90, expressed in dB(A).

Reason: To safeguard the amenities of the adjoining premises and the area generally in accordance with the requirements of policies A1 and A4 of the London Borough of Camden Local Plan 2017.

- 4 Prior to use, machinery, plant or equipment at the development shall be mounted with proprietary anti-vibration isolators and fan motors shall be vibration-isolated from the casing and adequately silenced and maintained as such.

Reason: To safeguard the amenities of the adjoining premises and the area generally in accordance with the requirements of policies A1 and A4 of the London Borough of Camden Local Plan 2017.

- 6 The development must be maintained in line with the Maintenance and Cleaning Schedule by Ideal Catering Solutions Ltd.

Reason: To safeguard the amenities of the adjoining premises and the area generally in accordance with the requirements of policies A1 and A4 of the London Borough of Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting permission.

The replacement duct and extract for the existing restaurant would be installed in the same location as the existing one and terminate only slightly higher at roof level to comply with guidance. Although it is marginally taller and fatter, given its location on the rear elevation, views from the street will be limited. The duct will be painted to try and match in with the existing brickwork of the host property which would be an improvement to the appearance of the existing duct. It would be acceptable in terms of its scale, siting and detailed design. It is considered that the development would not detract from the character and appearance of the host property or Belsize conservation area.

Due to the location and nature of the proposals, they would not harm

neighbouring amenity by way of loss of outlook, daylight or privacy.

An acoustic assessment has been submitted and reviewed by the Council's Environmental Officer who confirms that it meets the Local Authority noise criteria and should not have an adverse impact on the nearest sensitive receivers. The proposals are therefore acceptable in environmental health terms subject to the attached conditions which secure noise compliance and anti-vibration measures to be installed. In terms of odour, a cleaning and maintenance schedule has been submitted and its implementation shall be secured by condition.

No objections were received prior to determination, and the planning history of the site has been taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposed development is in general accordance with policies D1, D2, A1 and A4 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework 2021.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).
- 3 This approval does not authorise the use of the public highway. Any requirement to use the public highway, such as for hoardings, temporary road closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No 020 7974 4444). Licences and authorisations need to be sought in advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.
- 4 All works should be conducted in accordance with the Camden Minimum Requirements - a copy is available on the Council's website (search for 'Camden Minimum Requirements' at www.camden.gov.uk) or contact the Council's Noise and Licensing Enforcement Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No. 020 7974 4444)

Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays

and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.

You can find advice about your rights of appeal at:
