Subject: 2022/5344/T 84 Goldhurst Terrace OBJECTION

Dear Sir/Madam, I note that this is an application to remove a tree. I can see no rationale for this, and no supporting evidence. On that basis the application can not be entertained.

The trees are absolutely vital to maintain the character of this conservation area. They are protected for a good reason, and can't simply be removed with no evidence that removal falls within a permitted exemption.

I object to this application
