Dear Sir

Reference 2021/2954/P One Museum
Street: Objection.

I wish to register an objection to the
proposal to redevelop the Travel Lodge
building on Museum Street and High Holborn

Objections.

Impact on our unique neighbourhood of
Convent Garden and Bloomsbury and the
agreed need for residential housing in the
neighbourhood.

Convent Garden is envied all over the
world for linking conservation with enterprise,
modern design and traditional streets with
public spaces. Bloomsbury is also an area
of conservation based on its long history such

Such as the Earl of Southampton's Town.
~~These~~ In 1979 Michael Heseltine, Secretary
for the Environment, confirmed the listing of
more than 170 historic buildings in Covent
Garden and Bloomsbury, thus overturning
the proposals for a comprehensive development
plan to turn the area into pre-dominately
high-rise office blocks.

This speculative proposal to develop a 21-
story tower block must be refused. The
proposals should take a wholly new
direction to retrofit Selkirk
House to provide a 500 bed recovery
hospital with accommodation
for nursing staff.

Yours faithfully

Alan Spence,
