2022/4190/P	Anne O'Brien	08/12/2022 19:58:46	OBJ	<p>I think this proposal is ridiculous, This is a conservation area and these installations would be visible from all around and totally destroy the amenity of the area. Also the idea that the promoters would have direct access through the private building at all hours to deal with their equipment is outrageous. Security would be prejudiced. How would residents know who had any right to be coming out and in their building? Moreover, has anyone thought of the possible damage to the roof or whether it would support the equipment proposed and people walking around on it. I am entirely opposed to this application and consider that it should be turned down.</p>
2022/4190/P	William Silver	08/12/2022 15:53:12	OBJ	<p>I live in the Crest View block of flats.</p> <p>The same arguments against this application apply this time as the last, when it was REJECTED by the Council.</p> <p>Appearance, bulk, safety and the installation of these ugly apparatus without the company either seeking or receiving permission from the owners of the building, who are expected to allow access 24 hours a day to any man working for this company seem absolutely unacceptable on every level.</p> <p>I fully support all the other objections by others in the locality.</p> <p>I please ask the Council to stick to its guns and reject this plan again.</p>
