2022/5079/HS2	Mary-Louise Gray	11/12/2022 13:00:17	OBJ	<p>Dear Sir/Madam</p> <p>I write the below in response to the HS2 lorries being potentially allowed to use Albany Street, the thought of which causes me much anguish and anger!</p> <p>My bedroom faces the already busy and polluted road of Albany Street. With HS2 lorries going down this road, sleeping will become a bigger challenge than it already is. This paired with the increased pollution from increase traffic caused by lorries going up and down the street is sure to worsen the air quality for all who reside and vacate Albany Street and the surrounding area.</p> <p>With lorries going up Albany Street they will be faced with the narrow traffic lights on the corner of Chester Gate and Albany Street which is sure to slow traffic to a near halt as rush hour traffic descends upon the street in the busy hours of the day. With the increased amount of stationary car engines running on Albany Street this will exacerbate the pollution coming into my bedroom and the noise of tooting car horns which are sure to follow as a result of the HS2 lorries causing such chaos.</p> <p>Please consider the salient points in the aforementioned text which are, the impacts around the increased air and noise pollution, and the impact on my life as a resident resulting from the potential for HS2 lorries to use Albany Street. I am strongly apposed, as am sure are the rest of the people using and residing on Albany Street are, as such would expect that this application will be blocked.</p> <p>With best regards,</p> <p>Mary-Louise Gray</p>
2022/5079/HS2	Victor Max Smith	09/12/2022 21:02:14	OBJ	<p>This is an objection. I am a cyclist who regularly uses several of these roads to go to university, go shopping, and visit friends. HS2 has already put me and many other cyclists at risk by removing a cycle lane on the very busy Euston Road and clogging up the equally busy Hampstead Road with their traffic, and it's unacceptable that they want to put more lives in danger by filling previously quiet roads with lorries. I also want to point out that there are primary schools in the area, so kids use the roads to walk to school. HS2 has already made our lives miserable by building a noisy and polluting building site directly under people's windows and taking away our green spaces, they must not also put our lives at risk by making our roads unsafe.</p>
