Please provide a brief description of the building or part of the building you are proposing to demolish	
It is proposed to replace the existing collection of extensions that date from the 1980s. The unharmonious collection of structures replaced by a singular, uniform single-storey volume, with lower level service accommodation retained toward the rear of the prothe boundary with No. 18. The area to be demolished currently houses kitchen and dining areas.	
Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?	

The part of the building to be demolished is no longer compatible with the internal functions of the house and stands in conflict with the style of the original building. The demolition of the existing collection of extensions will allow for a new extension occupying a similar footprint with a singular, uniform, single-storey volume to be created. This will contain kitchen, dining, utility and pantry areas. This new addition will be built to current building standards allowing for an improvement in the overall energy efficiency of the building.
