Dear Sirs

I would like to register our objection to the proposals set out in this application. Our concern relates to the scale and massing of the new building in the context of its location / neighbours. This proposed new development will significantly change the integrity of this historic neighbourhood and the views from the surrounding streets.

We don't think there is justification to build on such a scale in this location and would be grateful if you would register our objection to the current proposals.

Many thanks

Peter Williams
