Dear Planning Department,

Letter of Support for proposals for the British Library Extension

I am writing on behalf of the British Museum to confirm our support of the proposed extension to the British Library.

We understand that at the heart of the proposed development will be new spaces of architectural quality and distinction, which will support the Library's purposes in research, culture, learning and business support.

We understand that the extended Library will present an open and welcoming face to all potential visitors and provide a community feel where local people are encouraged to enjoy the Library campus and its services. It is intended that accessibility and visibility from all points will attract increased pedestrian footfall across the site, enabling the Library to attract new audiences to its enhanced services and facilities, as well as serve even more effectively the people of the Borough of Camden.

I would like to thank you in advance in considering this letter.

Yours sincerely,

Hartwig Fischer
Director
