## Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

### Description

Please describe details of the proposed development or works including any change of use

Existing site:

The application site comprises a boiler plant room and associated external compound off Swains Lane. The plant room adjoins an apartment block and a residential property.

Redundant flues, fixed to the façade of 85-112 Makepeace Mansions and enclosed within Stucco cladding throughout the length of the flues, extend to roof level to terminate.

Access to the plant room is via a gated yard with very limited access provision.

Background:

Previous replacement of boiler plant serving the heat network took place in 2012, however operational issues were experienced with the installation and it suffered premature failure.

The estate is currently being serviced by temporary boilers situated on Swains Lane.

Redundant boiler plant and associated flues remain within the existing plant room, which also accommodates live distribution and controls equipment associated with the heat network.

Proposed works:

Fundamentally, proposals include the strip out of redundant boiler plant and replacement with new higher efficiency plant.

Flues associated with redundant boiler plant are unsuitable for re-use and are proposed for replacement. As part of the proposals, replacement flues will be required, proposed to follow a similar route to existing, exiting the plant room in the same location and extending to the roof via a similar route.

Pre application advice was sought regarding the flues, which recommended new flues be clad in a white render casing in lieu of the stucco cladding used to conceal the existing. Replacement casing is therefore proposed, which will be smaller than existing and be finished in a white render to match the existing building facade. Pre application advice also suggested alternative configurations of the flue be explored. This has been assessed and summarised in the accompanying paper submitted.

Some other works externally are proposed, namely the replacement of the fence and associated entrance gate off Swains Lane and clearance of debris and low level vegetation within the compound outside of the plant room. Works are presented on the accompanying drawings submitted.

Has the work or change of use already started?

- Yes  
 No

## Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

**To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.**

a) Protected and priority species

- Yes, on the development site
- Yes, on land adjacent to or near the proposed development
- No

b) Designated sites, important habitats or other biodiversity features

- Yes, on the development site
- Yes, on land adjacent to or near the proposed development
- No

c) Features of geological conservation importance

- Yes, on the development site
- Yes, on land adjacent to or near the proposed development
- No

**Supporting information requirements**

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Details of the pre-application advice received

Pre application advice was sought which recommended new flues be clad in a white render casing in lieu of the stucco cladding used to conceal the existing. Replacement casing is therefore proposed, which will be smaller than existing and be finished in a white render to match the existing building facade. Pre application advice also suggested alternative configurations of the flue be explored. This has been assessed and summarised in the accompanying paper submitted.

## Authority Employee/Member

**With respect to the Authority, is the applicant and/or agent one of the following:**

**(a) a member of staff**

**(b) an elected member**

**(c) related to a member of staff**

**(d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
