Subject: Application 2022/4190/P

Hello there,

My name is George, and I live at Crestview with my partner and Baby daughter.

I couldn't make out on the Camden Council website how and where to launch an official Objection to this planning application; though as a resident of the building, I and my partner, we strongly do object.

Is it possible to register this objection from this email, or else, could you point me in the right direction to do so?

Sorry to cause grief just before Christmas; just we are strongly against the putting in of these masts on the building.

Many thanks, and all the very best,  
George
