To the recipient of this sample

Please note that this sample is over-painted and is an indication of the plaster colour only. For intense/dark colours from our range, we would recommend over-coating the finished render for best results.

*If the light reflectance shown is < 20 and the colour is being selected for use on External Wall Insulation, please discuss with your Sto Specification Manager (approval process required).

www.sto.co.uk

The sample is for illustrative purposes only. It does not constitute a sample indicating product properties, e.g. texture, surface, colour shade. No commercial warranty is assumed for other properties on the basis of the sample and no liability can be derived from it. In this regard, the information on the products provided in the Technical Data Sheets shall always be authoritative. The impression resulting from the sample may differ when used at a later date on an actual object, in particular with regard to colour shade, texture and haptic.
