Dear Elaine Quigley,

Re. Planning application 2022/3904/P 67 Charlotte Street London W1T 4PH

Since submitting our objection, it has been brought to our attention that some but not all councils still use the DEFRA guidelines we have referenced. Could you please advise me of Camden Council's use of these guidelines and/or other guidance it uses in relation to planning applications for restaurant kitchen extract ducts in case we need to update our objection accordingly.

You will note that our objection refers often to these guidelines, however, whether or not Camden Council currently uses these guidelines we feel that all our points are no less valid. It would not seem right to approve a planning application that could immediately lead to legitimate Environmental Health problems and complaints.

Thank you for your assistance in this matter.

Best Regards,

Gregory Arnott & Lisa Waughman
