Subject: 2023/0012/T - Cherry tree pruning request

Hi

We have a cherry tree in our grounds that has a preservation order on it. We would like to request permission to have it significantly pruned. We last had it pruned two years ago. Since then it has dramatically grown blocking the light of the flats on the second floor as well as obstructing the view to the street causing a few security concerns and it is now hanging over our boundary when in full leaf.

It tends to grow very quickly and given the economic climate we would like to cut it back more than just a third of the crown.

I am attaching some pictures.

The address is
Burlington House
Wedderburn Road
NW3 5QS

The tree is situated on the Lyndhurst Gardens side of the block.

Please advise.

Many thanks

Mrs M Courtney
