Dear Mr Alex Kresovic,

I want to express my support for these plans put forward.

I am a trader at the market so I can see the obvious benefits for market stall owners. I have always felt like investment has been needed on the market hall for some years, not only to reduce the congestion, but in general to make it better looking and more attractive for market goers. The plans will make it easier for market attendees to navigate through the market and give the market the respect it deserves.

I also feel like there are so many different groups who are missing out on Camden market and the experience it has to offer, this may be because they do not feel welcome and are currently uncomfortable visiting – for me the opening of the basin is massive as it gives a new reason to come to the market and witness the great culture Camden has to offer.

I am looking forward to construction starting

Thank you,  
Hilmi Kivanc
