2022/5354/P	Alan Mason	10/01/2023 13:19:56	OBJ	I agree with the points already made by the other objectors, but wish to object to a detail that others have, perhaps, not noticed. The submitted drawings appear to indicate that the folding sliding doors of the dental surgery when in the 'open' position - as they will be throughout the day - are positioned at right-angles to the building, protruding out into the public realm. This is an obvious hazard for pedestrians and a security risk for the residents of flats above the surgery. This design of door is quite unsuitable for this property.
