Re my objection to HS2 headhouse at Adelaide Road, [REDACTED]
[REDACTED]
[REDACTED] Regents Park Road Bridge at Primrose hill,
at the top of Gloucester Avenue, the pedestrian iron bridge over the railway.
This is where you can't fail to see the proposed building and it will be hideous!
[REDACTED]

Thank you,

Regards

Annabel

[REDACTED]
I object to the hideous headhouse that can clearly be seen [REDACTED]
[REDACTED] It is entirely out of keeping with ANY architecture [REDACTED]

This is what needs to happen:

1. Consult with key local stakeholders (CRHT was never consulted)
2. Respect the heritage of the tunnel portals, raised to grade II* by a CRHT initiative, the finest structure in Primrose Hill, and do nothing to demean or belittle their setting, blending the new structure into its surroundings
3. Respect the views of owners and residents in neighbouring properties
4. Reinstate the woodland landscape and enhance the existing nature reserve
5. Provide an adequate cross passage to allow movement of flora and fauna, and eventually people, in front of the vent shaft

6. Give something back to the local community to compensate for all the disruption, something that would enhance the environment despite the engineering works.

Thank you,

Regards

Annabel
