I object strongly to this latest retrospective application and urge you to refuse to grant this further deviation from the original. Encroachment by stealth appears to be the modus operandi of these developers.

I have previously objected to various applications and reiterate remarks made on these occasions and am in accord with the submission by The Bloomsbury Association.

The previously undisclosed catering facilities will create more unwarranted vehicle servicing in what is still a residential area with associated noise , pollution etc.

In brief the change of use,increased noise,more rubbish engendered,more ventilation issues,increased traffic ,deteriorating air quality will adversely affect residents.

It makes sense to refuse this application M Stroud
